

## AFS SOLUTIONS: APPETIZERS

Offer new, interchangeable flavors while retaining functionality of improved freeze/thaw stability and reheated texture.

### ARANCINI & POPPERS

- **Seal 'N Crisp® FVS** provides excellent breading adhesion and crispy texture upon frying. Use with AFS seasonings to achieve varieties such as:
  - **Arancini** - Four Cheese Arancini, Poblano Roasted Corn, Shrimp or Jambalaya Rice balls.
  - **Poppers** - Pizza, Spinach, Crab or Seafood Bisque poppers.

### SHRIMP & CRAB CAKES

- **Actobind® 3924** provides hot & cold viscosity and prevents crab cakes from losing shape in thawing/shrinkage stages.
- **Actobind® 3900** provides binding with firm texture, freeze/thaw stability and cold viscosity.
- **FlavorTex® Crab System** offers desired texture in hydrated wheat protein and can replace up to 30% crab cakes.
- **Chef-Ready® Seasoning**

### POPCORN SHRIMP OR CHICKEN

- **Actobind® CBS-1** improves cooked yield, gives firm juicy texture and freeze/thaw stability in Chicken.
- **Seal 'N Crisp® Batter Base** adheres to chicken or shrimp during cooking to maintain crispiness after freezing and frying.
- **TenderBite ANS** is a natural or clean label static marinating system for shrimp offering excellent cooked yield with a juicy, tender texture and desirable red color.
- **Seal 'N Saucy** precoats with flavor and coating interface between chicken and breading.

### MINI MEATBALLS

- **SeasonRite® Marinade QPM** is a binding and texture system incorporating BBQ pork seasoning that provides excellent cooked yield with a firm, moist texture.
